

Calibrate your scales and tapes
with more precision

SCALE & TAPE CALIBRATION UNIT

The measuring tapes and scales play very important role in the field of engineering. The applications of these measuring tools are very wide from civil, mechanical to textile industry and also in society at large. Hence, it is necessary to calibrate tapes and scales with great precision, to maintain high measurement standards of the same.

The Scale and Tape Calibration Unit is a unique solution for calibrating different measuring scales / tapes.

FEATURES :

1. Meets I.S. requirements
2. Higher Accuracy
3. Assured Repeatability

Manufactured by :

KUDALE INSTRUMENTS PVT. LTD.

"Precision House" 98 A/17, Hadapsar Industrial Estate, Pune-411 013. (India)

Tel. : +91-20-6872068, 6870567 Fax : +91-20-6875383

E-mail : msands@vsnl.com Web site : www.kudaleinstruments.com

SPECIFICATIONS :

Overall dimensions

1250L x 200B x 335H (Approx) mm.

Dimension of D.R.O.

270L x 120B x 150H (Approx) mm.

Resolution of D.R.O.

0.005mm

Repeatability

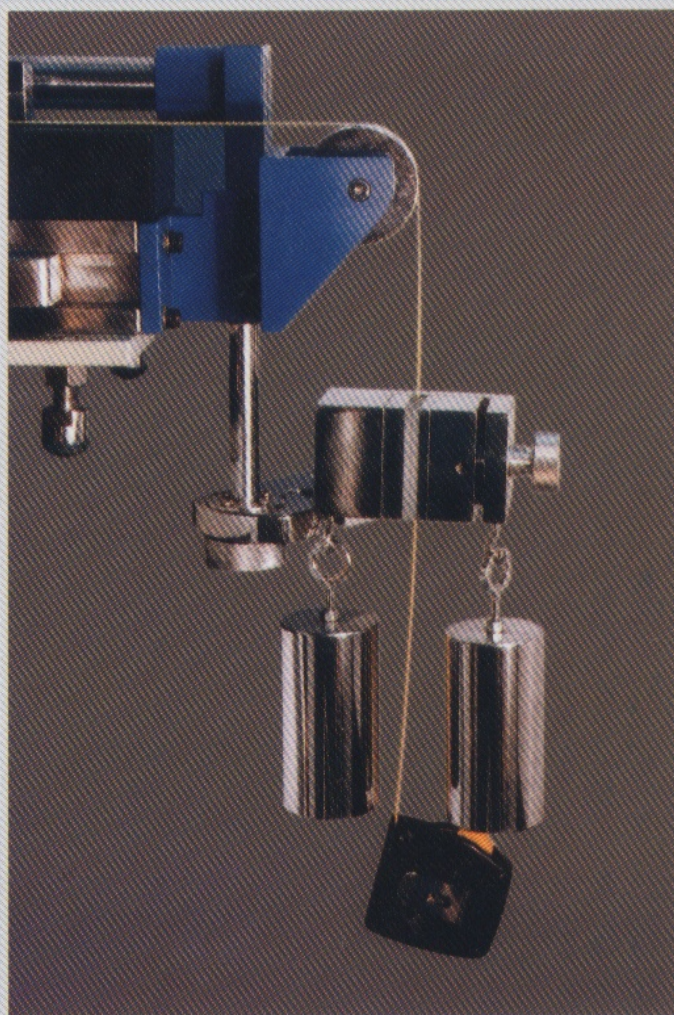

± 0.005 mm

Accuracy

$\pm 0.020/1000$ mm.

Microscope magnification

10X

Our other products :

- Electronic Dial Calibration Tester
- Roundness & Cylindricity Tester
- Electronic Torque Wrench Tester
- Spring Tester
- Rubber Hardness Tester
- Tensometer

Note : ● The models in this leaflet may differ slightly from actual to cater to new technology.
